# Your Social Security Statement

Your *Social Security Statement* tells you about **how much you or your family would receive** in disability, survivor, or retirement benefits. It also includes our record of your lifetime earnings. Check out your earnings history, and **let us know right away if you find an error**. This is important because we base your benefits on our record of your lifetime earnings.

Social Security benefits are **not intended to be your only source of income when you retire**. On average, Social Security will replace about 40 percent of your annual pre-retirement earnings. You will need other savings, investments, pensions, or retirement accounts to make sure you have enough money to live comfortably when you retire.

# Your Estimated Benefits

## Because You Have Already Filed a Claim for Benefits

We are not giving you estimates because our records show that you have already qualified for benefits.

**If the benefits are based on your own record**, you received a notice of your benefit amount when you first qualified. Each year, you get an updated notice showing the annual cost-of-living increase. If you continue working while qualified for benefits and those earnings increase your benefit amount, we will send you additional notices of the new amounts. And when you die, we will base benefit payments for your survivors on your benefit amount.

**If you are getting benefits as the spouse or the widow or widower of someone else**, we must look at both records to determine how much you are entitled to. Please call our toll-free telephone number on page 4 or contact your local Social Security office so that we can discuss this with you.

## How Your Benefits Are Estimated

To qualify for benefits, you earn "credits" through your work — up to four each year. This year, for example, you earn one credit for each \$1,470 of wages or self-employment income. When you've earned \$5,880, you've earned your four credits for the year. Most people need 40 credits, earned over their working lifetime, to receive retirement benefits. For disability and survivors benefits, young people need fewer credits to be eligible.

We checked your records to see whether you have earned enough credits to qualify for benefits. If you haven't earned enough yet to qualify for any type of benefit, we can't give you a benefit estimate now. If you continue to work, we'll give you an estimate when you do qualify.

**What we assumed** — If you have enough work credits, we estimated your benefit amounts using your average earnings over your working lifetime. For 2021 and later (up to retirement age), we assumed you'll continue to work and make about the same as you did in 2019 or 2020. We also included credits we assumed you earned last year and this year.

Generally, the older you are and the closer you are to retirement, the more accurate the retirement estimates will be because they are based on a longer work history with fewer uncertainties such as earnings fluctuations and future law changes. We encourage you to use our online Retirement Estimator to obtain immediate and personalized benefit estimates.

We can't provide your actual benefit amount until you apply for benefits. **And that amount may differ from the estimates above because:**

- (1) Your earnings may increase or decrease in the future.
- (2) After you start receiving benefits, they will be adjusted for cost-of-living increases.

(3) Your estimated benefits are based on current law. **The law governing benefit amounts may change.**

(4) Your benefit amount may be affected by **military service, railroad employment or pensions earned through work on which you did not pay Social Security tax.** Visit [www.socialsecurity.gov](http://www.socialsecurity.gov) to learn more.

**Windfall Elimination Provision (WEP)** — If you receive a pension from employment in which you did not pay Social Security taxes and you also qualify for your own Social Security retirement or disability benefit, your Social Security benefit may be reduced, but not eliminated, by WEP. The amount of the reduction, if any, depends on your earnings and number of years in jobs in which you paid Social Security taxes, and the year you are age 62 or become disabled. To estimate WEP's effect on your Social Security benefit, visit [www.socialsecurity.gov/WEP-CHART](http://www.socialsecurity.gov/WEP-CHART). For workers newly eligible in 2021, the maximum monthly reduction in PIA is \$498. For more information, please see *Windfall Elimination Provision* (Publication No. 05-10045) at [www.socialsecurity.gov/WEP](http://www.socialsecurity.gov/WEP).

**Government Pension Offset (GPO)** — If you receive a pension based on federal, state or local government work in which you did not pay Social Security taxes and you qualify, now or in the future, for Social Security benefits as a current or former spouse, widow or widower, you are likely to be affected by GPO. If GPO applies, your Social Security benefit will be reduced by an amount equal to two-thirds of your government pension, and could be reduced to zero. Even if your benefit is reduced to zero, you will be eligible for Medicare at age 65 on your spouse's record. To learn more, please see *Government Pension Offset* (Publication No. 05-10007) at [www.socialsecurity.gov/GPO](http://www.socialsecurity.gov/GPO).

# Your Earnings Record

Years You Worked	Your Taxed Social Security Earnings	Your Taxed Medicare Earnings
1986	1,169	1,169
1987	1,721	1,721
1988	3,451	3,451
1989	4,892	4,892

Years You Worked	Your Taxed Social Security Earnings	Your Taxed Medicare Earnings
2018	0	0
2019	0	0
2020	Not yet recorded	Not yet recorded

**Total Social Security and Medicare taxes paid over your working career through the last year reported on the chart above:**

Estimated taxes paid for Social Security:

You paid: \$15,475  
 Your employers paid: \$13,758

Estimated taxes paid for Medicare:

You paid: \$3,642  
 Your employers paid: \$3,218

**Note:** Currently, you and your employer each pay a 6.2 percent Social Security tax on up to \$142,800 of your earnings and a 1.45 percent Medicare tax on all your earnings. If you are self-employed, you pay the combined employee and employer amount, which is a 12.4 percent Social Security tax on up to \$142,800 of your net earnings and a 2.9 percent Medicare tax on your entire net earnings. If you have earned income of more than \$200,000 (\$250,000 for married couples filing jointly), you must pay 0.9 percent more in Medicare taxes.

## Help Us Keep Your Earnings Record Accurate

You, your employer and Social Security share responsibility for the accuracy of your earnings record. Since you began working, we recorded your reported earnings under your name and Social Security number. We have updated your record each time your employer (or you, if you're self-employed) reported your earnings.

Remember, it's your earnings, not the amount of taxes you paid or the number of credits you've earned, that determine your benefit amount. When we figure that amount, we base it on your average earnings over your lifetime. If our records are wrong, you may not receive all the benefits to which you're entitled.

**Review this chart carefully** using your own records to make sure our information is correct and that we've recorded each year you worked. You're the only person who can look at the earnings chart and know whether it is complete and correct.

Some or all of your earnings from **last year** may not be shown on your *Statement*. It could be that we still were processing last

year's earnings reports when your *Statement* was prepared. **Note:** If you worked for more than one employer during any year, or if you had both earnings and self-employment income, we combined your earnings for the year.

**There's a limit on the amount of earnings on which you pay Social Security taxes each year.** The limit increases yearly. Earnings above the limit will not appear on your earnings chart as Social Security earnings. (For Medicare taxes, the maximum earnings amount began rising in 1991. Since 1994, **all** of your earnings are taxed for Medicare.)

**Call us right away at 1-800-772-1213** (7 a.m.-7 p.m. your local time, TTY 1-800-325-0778) if any earnings for years **before last year** are shown incorrectly. Please have your W-2 or tax return for those years available. (If you live outside the U.S., follow the directions at the bottom of page 4.)

# Some Facts About Social Security

## About Social Security and Medicare...

Social Security pays retirement, disability, family and survivors benefits. Medicare, a separate program run by the Centers for Medicare & Medicaid Services, helps pay for inpatient hospital care, nursing care, doctors' fees, drugs, and other medical services and supplies to people age 65 and older, as well as to people who have been receiving Social Security disability benefits for two years or more. Your Social Security covered earnings qualify you for both programs. Medicare does not pay for long-term care, so you may want to consider options for private insurance. For more information about Medicare, visit [www.medicare.gov](http://www.medicare.gov) or call **1-800-633-4227** (TTY **1-877-486-2048** if you are deaf or hard of hearing).

**Retirement** — If you were born before 1938, your full retirement age is 65. Because of a 1983 change in the law, the full retirement age will increase gradually to 67 for people born in 1960 and later.

Some people retire before their full retirement age. You can retire as early as 62 and take benefits at a reduced rate. If you work after your full retirement age, you can receive higher benefits because of additional earnings and credits for delayed retirement.

**Disability** — If you become disabled before full retirement age, you can receive disability benefits after six months if you have:

- enough credits from earnings (depending on your age, you must have earned six to 20 of your credits in the three to 10 years before you became disabled); and
- a physical or mental impairment that's expected to prevent you from doing "substantial" work for a year or more *or* result in death.

If you are filing for disability benefits, please let us know if you are on active military duty or are a recently discharged veteran, so that we can handle your claim more quickly.

**Family** — If you're eligible for disability or retirement benefits, your current or divorced spouse, minor children or adult children disabled before age 22 also may receive benefits. Each may qualify for up to about 50 percent of your benefit amount.

**Survivors** — When you die, certain members of your family may be eligible for benefits:

- your spouse age 60 or older (50 or older if disabled, or any age if caring for your children younger than age 16); and
- your children if unmarried and younger than age 18, still in school and younger than 19 years old, or adult children disabled before age 22.

If you are divorced, your ex-spouse could be eligible for a widow's or widower's benefit on your record when you die.

**Extra Help with Medicare** — If you know someone who is on Medicare and has limited income and resources, extra help is available for prescription drug costs. The extra help can help pay the monthly premiums, annual deductibles and prescription co-payments. To learn more or to apply, visit [www.socialsecurity.gov](http://www.socialsecurity.gov) or call **1-800-772-1213** (TTY **1-800-325-0778**).

## Receive benefits and still work...

You can work and still get retirement or survivors benefits. If you're younger than your full retirement age, there are limits on how much you can earn without affecting your benefit amount. When you apply for benefits, we'll tell you what the limits are and whether work would affect your monthly benefits. When you reach full retirement age, the earnings limits no longer apply.

## Before you decide to retire...

Carefully consider the advantages and disadvantages of early retirement. If you choose to receive benefits before you reach full retirement age, your monthly benefits will be reduced.

To help you decide the best time to retire, we offer a free publication, *When To Start Receiving Retirement Benefits* (Publication No. 05-10147), that identifies the many factors you should consider before applying. Most people can receive an estimate of their benefit based on their actual Social Security earnings record by using our online Retirement Estimator. You also can calculate future retirement benefits by using the Social Security Benefit Calculators at [www.socialsecurity.gov](http://www.socialsecurity.gov).

Other helpful free publications include:

- *Retirement Benefits* (No. 05-10035)
- *Understanding The Benefits* (No. 05-10024)
- *Your Retirement Benefit: How It Is Figured* (No. 05-10070)
- *Windfall Elimination Provision* (No. 05-10045)
- *Government Pension Offset* (No. 05-10007)
- *Identity Theft And Your Social Security Number* (No. 05-10064)

We also have other leaflets and fact sheets with information about specific topics such as military service, self-employment or foreign employment. You can request Social Security publications at our website, [www.socialsecurity.gov](http://www.socialsecurity.gov), or by calling us at **1-800-772-1213**. Our website has a list of frequently asked questions that may answer questions you have. We have easy-to-use online applications for benefits that can save you a telephone call or a trip to a field office.

You also may qualify for government benefits outside of Social Security. For more information on these benefits, visit [www.benefits.gov](http://www.benefits.gov).

**If you need more information** — Contact any Social Security office, or call us toll-free at **1-800-772-1213**. (If you are deaf or hard of hearing, you may call our TTY number, **1-800-325-0778**.) If you have questions about your personal information, you must provide your complete Social Security Number. If you are in the United States, you also may write to the Social Security Administration, Office of Earnings Operations, P.O. Box 33026, Baltimore, MD 21290-3026. If you are outside the United States, please write to the Office of International Operations, P.O. Box 17769, Baltimore, MD 21235-7769, USA.
